

FREE TO A GOOD HOME! LeClerc 45 inch, 4 shaft Nilus floor loom. The loom needs some work, but is basically in good, restorable condition. Some of the metal parts are rusty and it's in need of a new canvas apron. It has a sectional beam with a few broken pegs. It was made in 1973, has the metal shaft guides, serial number ND45 4 73 04.

As mentioned it needs care but the company is still in operation and parts and manuals are available. Loom is located in Arroyo Grande. Contact Karen Wiley karen.wiley@gmail.com if interested
