

February 10: Sierra Mohr will speak on "Ecoprinting Basics"

Sierra Mohr is a past president of the Foothill Fibers Guild. She teaches felting and knitting regionally. She has won numerous awards at the Nevada County and State Fair for her fiber creations. Her on-line business, "Chic Thrills," carries her nuno-felted and wet felted pieces as well as her marvelous hand spun art yarns. Now she has added her one-of-a-kind eco-printed wares. For our Feb program, Sierra will take us through the process of transferring flora onto fiber in the process called Ecoprinting.

Sierra says of herself: "I love to create...stuff. Since my childhood, I have made things. I began sewing and knitting at about age 8 when I began hand sewing and knitting clothes for my Barbie doll. About 12 years ago I discovered ecoprint dyeing. From the moment I saw it, I knew I had to learn how to do this incredible technique. I set out to learn as much as I could and began my process of experimenting and creating eco printed items. That continues today. The results are always thrilling. There is always more to learn and I have yet to tire of the results. "
